

Clearview Families,

After several years of fundraising for new playground equipment, I am excited to share that through what we have raised through our PTSO fundraising efforts and a recent anonymous donation, we have met our fundraising goals! We will now be able to purchase a new playground structure for our lower playground.

In the attached document you will see a rendering of what our new equipment will look like (this will replace our existing structure). We are looking at installation work to begin in the spring of 2024.

We want to thank our Clearview families, staff, and students that helped to support this effort through the many fundraisers we have done over the past few years. In addition, we thank the members of our PTSO (Parent Teacher Student Organization) that have helped support this initiative from the beginning. Our PTSO was instrumental in helping to fund our Gaga ball pit, and stand alone playground equipment pieces that were installed last spring.

We will continue to give you updates on the progress of the playground construction as it begins later this year.

Respectfully,  
Dr. Matt Busekrus
